A photograph of a modern building constructed from horizontal wooden slats. The building features a wooden deck and a swimming pool in the foreground. The pool's surface reflects the building and the surrounding trees. In the background, there are lush green trees and a body of water under a clear blue sky. The text "Hermpac's enduring dedication to verified timber certification and management will not waiver." is overlaid on the image in white, bold, sans-serif font. A thin white horizontal line is positioned below the text.

**Hermpac's enduring
dedication to verified
timber certification
and management will
not waiver.**

For peace of mind for both our company and customers, the most effective method of ensuring timber products are legal or from well managed forests, is to ensure they carry independent third party certification. Hermpac currently purchases timber under the following chain of custody schemes:

Forest Stewardship Council ® (FSC®)

Programme for the Endorsement of Forest Certification (PEFC)

Verified Legal Compliance (VLC)

CertiSource
